

### ***A Note About Medications To Be Given at School:***

1. The school does not have any medication on hand for students. Only medications brought in and accompanied by a completed "Permission for School Administration of Medication" form may be given to a student.
2. Parents must fill out a "Permission for School Administration of Medication" form for each medication. This form must be filled out every year or when any changes are made.
3. A separate form is required for each student receiving a medication.
4. All medications must be in the original container.
5. Prescription medications, to be given at school, should be accompanied by the completed "Permission for School Administration of Medication" form, a physician prescription, and provided to the school in the original labeled container provided by the pharmacist who filled the prescription. (Pharmacy will provide an extra medication bottle when asked.)
6. Nonprescription (over the counter) medications must be appropriate for the age of the student and in the appropriate dosage as listed on the container/bottle.
7. Expired medications will not be given to student. A medication expires on the last day of the month as listed on the container.
8. It is suggested that all medications administered to your child be approved by his/her doctor.
9. "Sample" medications must be provided in a container that appropriately identifies the medication and must be accompanied by a note signed by the prescribing physician that includes the student's name, directions for proper administration, and the name, address, and phone number of the prescribing health care provider.
10. The very first dose of any medication should not be given in school, as it is unknown how the student will react to the medication.
11. Medications may be left at school for use throughout the school year as needed. Again this must be supplied from home and accompanied by the completed "Permission for School Administration of Medication".
12. All medications are to be stored in the First Aid Office, not carried by students.

## Permission for School Administration of Medication

Medications should be administered by a parent or guardian before or after school hours, when possible. Initial doses of a medication that a child has never taken before should not be given at school.

Prescription medications to be given at school **should be accompanied by this form, a physician prescription, and provided to the school in the original labeled container** provided by the pharmacist who filled the prescription.

Nonprescription (over the counter) medications **should also be accompanied by this form, and provided to the school in the original labeled container.** It is suggested that all medications administered to your child be approved by his/her doctor.

**A separate form is required for each medication and for each child.**

**NOTE:** The school does not maintain a supply of any medications.

("Sample" medications must be provided in a container that appropriately identified the medication and must be accompanied by a note signed by the prescribing physician that includes the student's name, directions for proper administration, and the name, address, and phone number of the prescribing health care provider.)
