

The Immaculate Conception **Kindergarten Program** focuses on developing each child's social, emotional, and academic skills. When you walk into our classroom, you will find students actively engaged in learning to read, write simple stories, and developing essential math skills.

The students will learn skills for continued academic success through Houghton Mifflin-Harcourt Reading Program, as well as following the Diocesan Curriculum Standards. Our goals are to build relationships with each child and help them to build their personal relationships with God.

## ABOUT IMMACULATE CONCEPTION SCHOOL

*Home of the "Angels"*

Immaculate Conception School was opened in 1914. The original two-story combination church and school of 90 students initially operated by five Sister of Charity of the Incarnate Word has grown to a three building facility housing around 325 students, pre-kindergarten through eighth grade.

Immaculate Conception is characterized by an interdependent support system in which parents, teachers, administration, and the parish family work together to share their faith, time, talent, and financial resources for the educational growth and Christian development of its students. This interdependence is deeply rooted in parish tradition and generations of support.

Immaculate Conception School recognizes the parents of the parish as primary educators of their children and assists them in their role. Our goal is to create a strong foundation of faith, to ask challenging societal questions, and to present student-centered authentic experiences allowing each student to grow into a productive citizen in the church and the world. Opportunities will be provided for students to learn, play, and pray daily.
